108 Workshop: What Does Success Look Like in Practice Transformation?

OCTOBER 22, 2018 | SHERATON TYSONS HOTEL | TYSONS, VA

Welcome

Shari Erickson

Vice President, Governmental Affairs and Medical Practice, American College of Physicians

Workshop Objectives:

- Offer practical solutions and strategies for practices facing challenges in the transition from from traditional fee-for-service to alternative payment.
- Provide attendees with tangible and practical knowledge, insight, and anecdotes you can take back to your organizations, with the goal of achieving success in practice transformation.

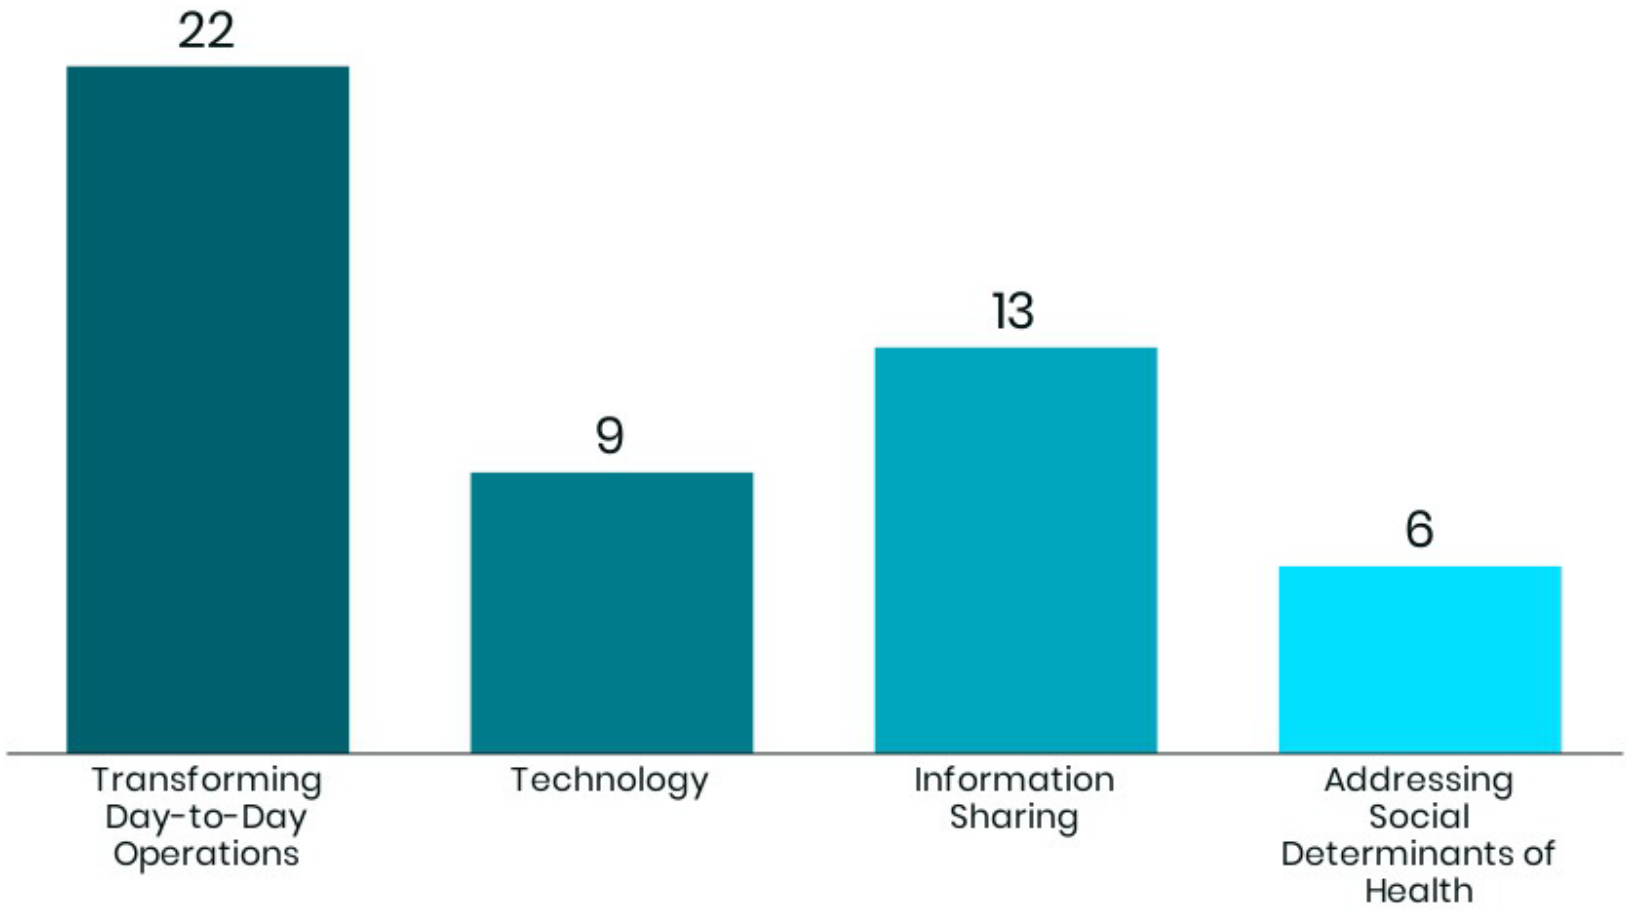
Workshop Structure:

- Attendees will respond – via your phone and the mentimeter app – to a poll question that will help faculty determine where to focus the discussion.
- Faculty will introduce themselves and share anecdotes about their experience in transforming clinical practice, referencing specifically how they addressed the core competencies described on the previous slide.
- Following the poll results, attendees will ask questions related to their own challenges in implementing processes to transform practice, and then address the technology and tools needed to support those processes.

What are Your Practice Transformation Challenges?

- Transforming Day-to-Day Practice Operations
- Technology
- Information Sharing
- Addressing Social Determinants of Health

What are Your Practice Transformation Challenges?



Workshop Faculty

Peter Basch

Senior Director for IT Quality and Safety and National Health IT Policy, MedStar Health

Rob Flemming

Centers for Medicare & Medicaid Services

Paul Rosen

Centers for Medicare & Medicaid Services

Workshop Faculty

Angelo Sinopoli

Chief Clinical Officer, Prisma Health

Brian Wheeler

Vice President, Practice Consulting Group

Now it's Your Turn!

- **What changes do you view as being necessary to achieving a successful transformation of your practice in alignment with an alternative payment model?**
  - What does a typical day look like in FFS vs. an APM?
  - How can you create and optimize care teams?
  - How do you achieve high performance on measures of patient experience, clinical quality, and costs?

- **What specific barriers are you facing in this effort**? Have you visualized what success looks like for your practice? What does failure look like?

- **What tools and technologies do you want to learn more about?**
  - Performance dashboards to track your performance and compare to others?
  - Practice automation tools
  - Functional EHRs
  - Registries/Recall Lists
  - Analytics
  - Bi-Directional Resource and Information Sharing?
