

Cost Comparison

Cost Per Member Per Month: PFK Compared to Medicaid

Plan HEDIS Performance

Healthy Neighborhoods, Healthy Families (HNHF)

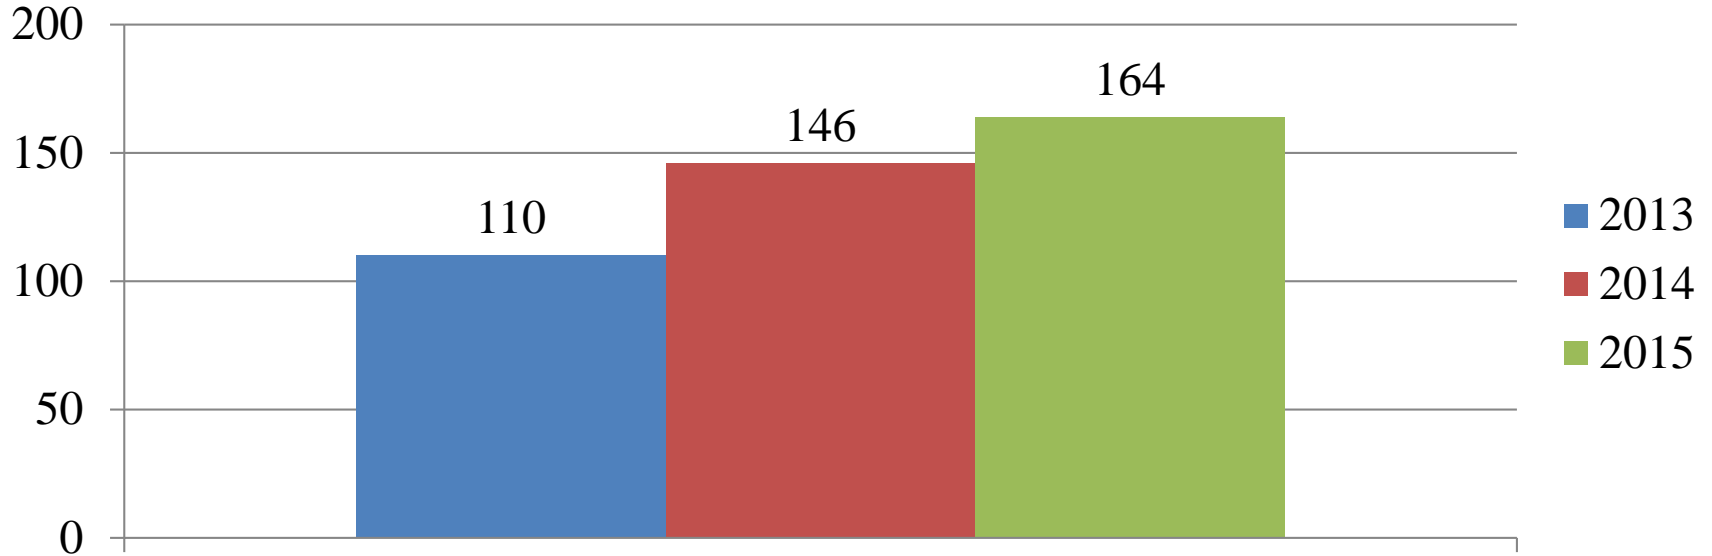

Affordable Housing--Investment (2008-14)

NCH Contribution	\$4,613,000.00
United Way	\$1,337,056.00
NSP	\$4,445,604.00
Franklin County Land Bank	\$40,000.00
Homes Sales	\$3,289,228.00
Donations:	\$22,050.00
Total Investment	<u>\$13,746,938.00</u>

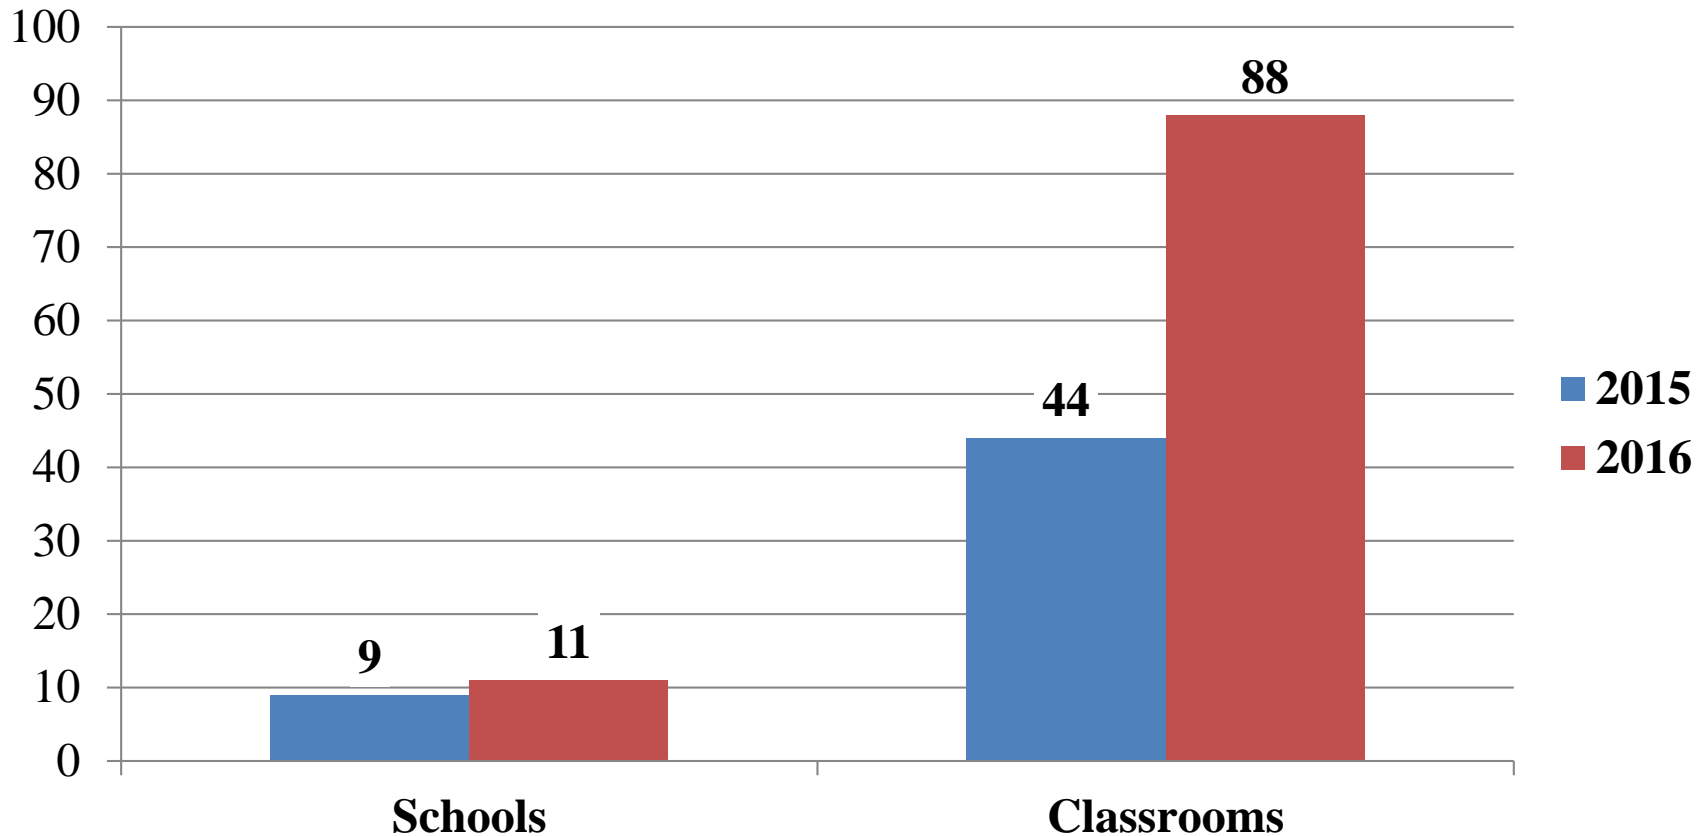

Community Workforce

Number of HNHF Residents Hired since Program Inception

Total Residents Hired from 43205, 43206 and 43207

PAX Good Behavior Game in Columbus City Schools

Risk-based Pediatrics

FFS	Risk
PCMH	PCMNeighborhood
Anticipatory Guidance Visit	Group Well Care, Online Care
Physician Care	Team Care
Physician Focused Practice	Retail/Consumer Focused Care
Child Wellness	Social Determinants of Health

Next Challenges

- Pediatric Vital Signs and outcomes of risk
- Wrong pocket, horizontal integration
- Data integration across sectors
- PEDIATRIC EXCEPTIONALISM IN POLICY

Children's
Hospital of Wisconsin

Kids deserve the best.

Children's Hospital of Wisconsin

Pediatric Population Health and Value-Based Care

Veronica Gunn, MD, MPH, FAAP

Disclosure

- I have no conflicts of interest
- I will not be discussing the off-label use of pharmaceuticals

Objectives

- Illustrate approaches to managing pediatric health in context of value-based payments
 - Addressing “whole” health
- Highlight challenges of managing pediatric populations

Factors that define a child's health.

Staying healthy is mostly about what happens outside the doctor's office.

10%
20%
30%
40%

In fact, only 10% of our health comes from access to **quality health care.**

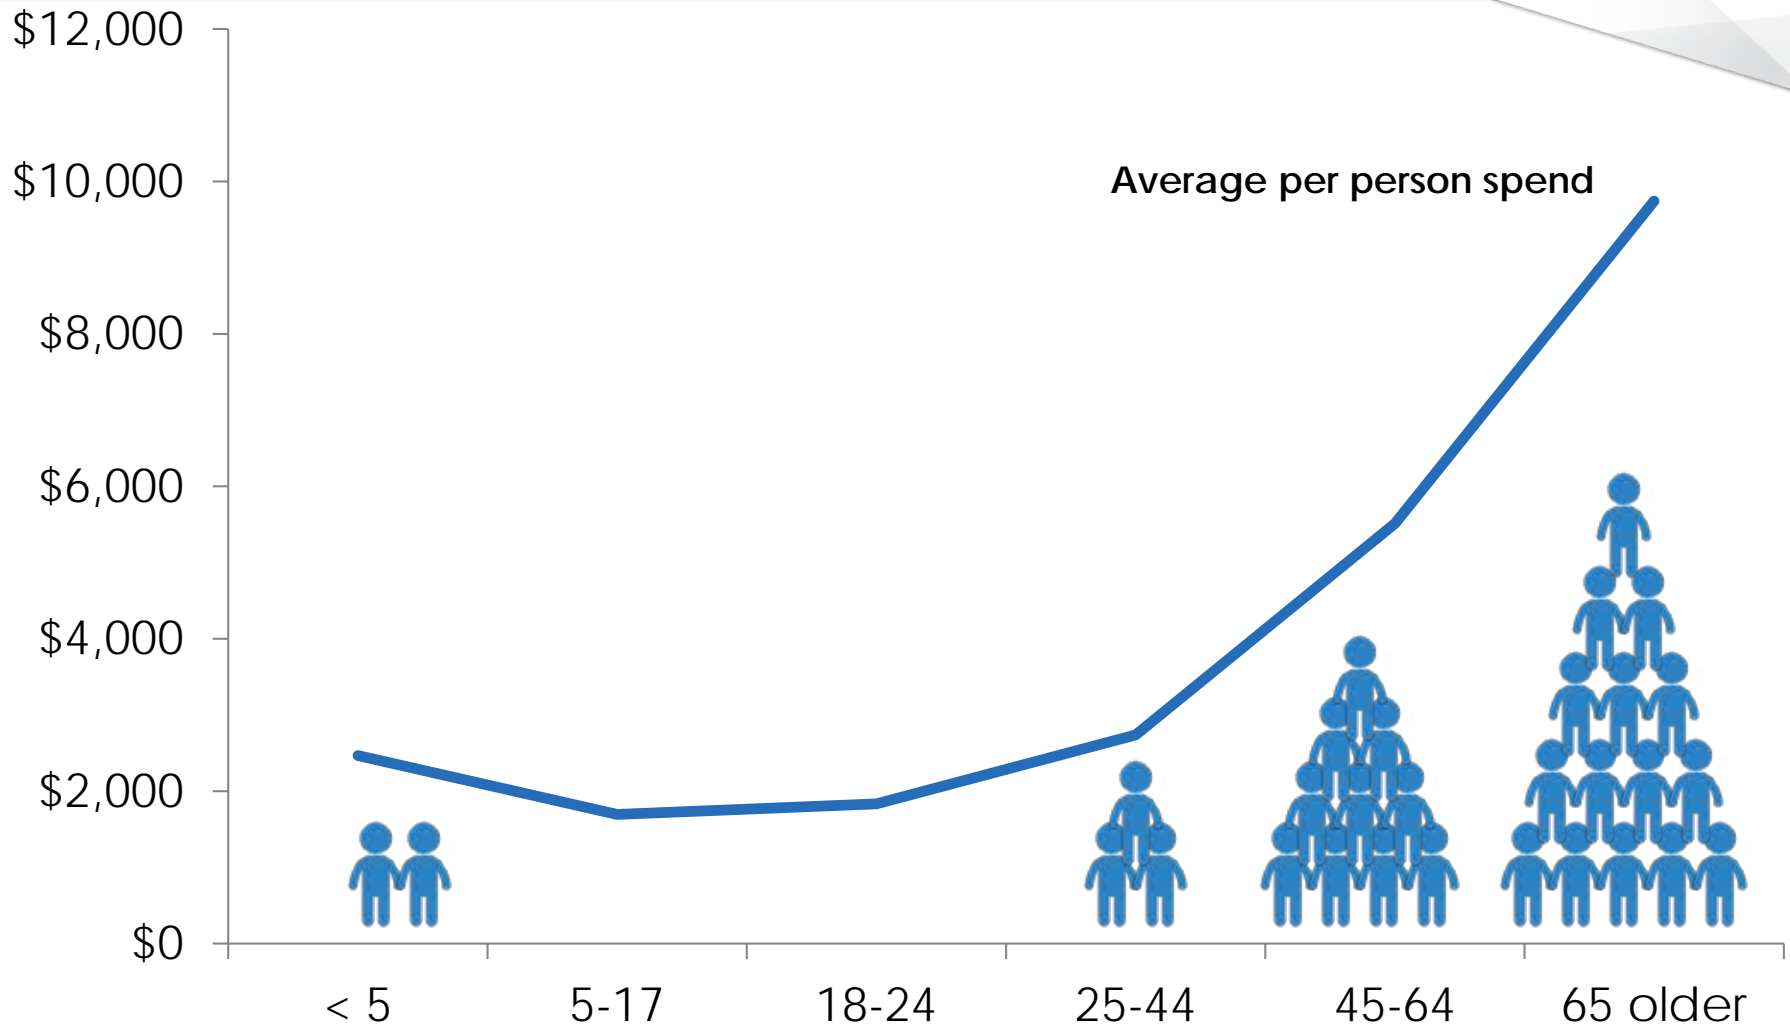

The rest comes from:
The world around us.
(home, school, community)

What we're born with.
(family history)

The choices we make.
(food, exercise, safety)

Kids are Different
