APM FRAMEWORK

At-a-Glance

The *Framework* is a critical first step toward the goal of better care, smarter spending, and healthier people.

- Serves as the foundation for generating evidence about what works and lessons learned
- Provides a road map for payment reform capable of supporting the delivery of person-centered care
- Acts as a "gauge" for measuring progress toward adoption of alternative payment models
- Establishes a common nomenclature and a set of conventions that will facilitate discussions within and across stakeholder communities

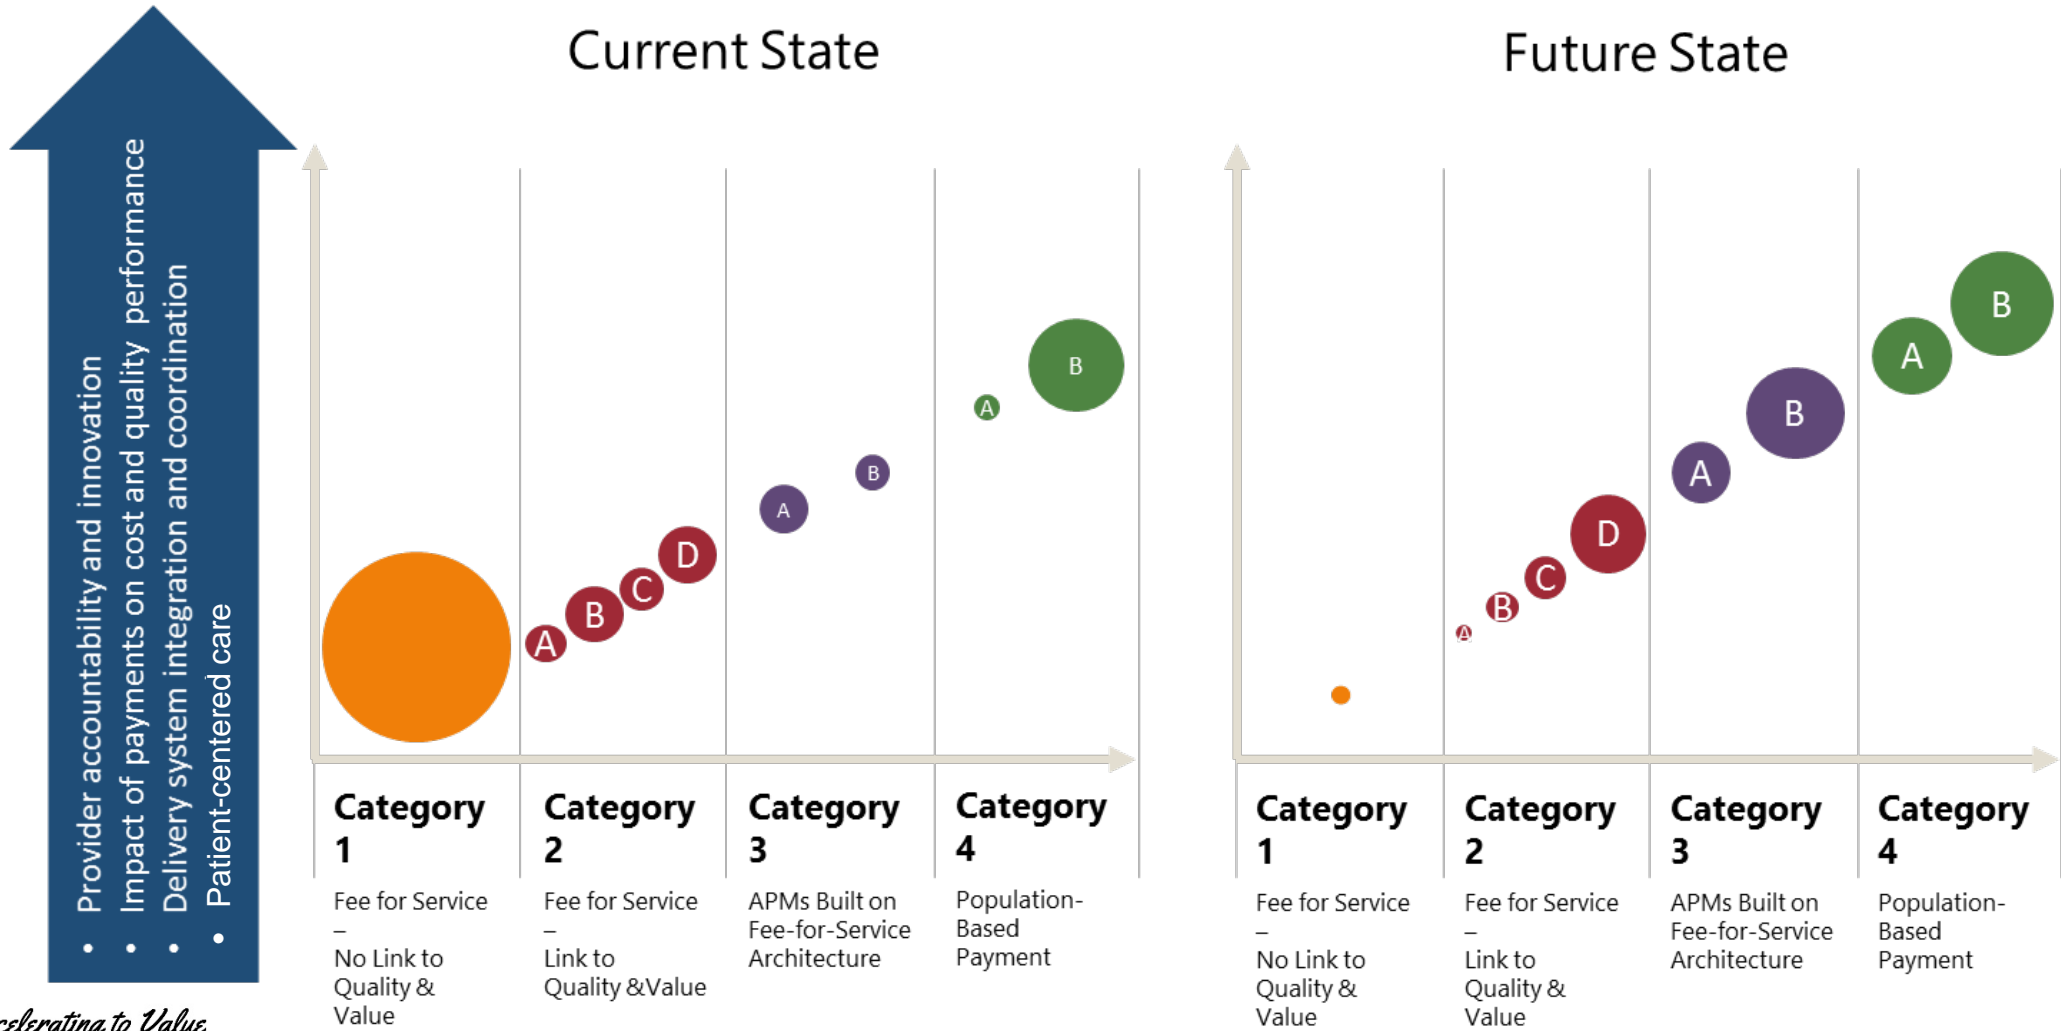

Population-Based Accountability

The framework situates existing and potential APMs into a series of categories.
